Note: *Permanent Resident Fully Authorized to Work in the United States*

I am a postdoctoral researcher at Cornell University, studying how to govern, evaluate, and design AI systems and online platforms according to social, cultural, and political factors. My research combines algorithmic audits, qualitative inquiry, and accountability artifacts to examine AI across Global Majority communities, computational models in low-resource contexts, and public-sector institutions.

Employment

2026-Now	**Cornell University**	Ithaca, NY, USA
	• Postdoctoral Associate, Computing and Information Science Funded by the **Global Artificial Intelligence Initiative**.	
2024-2026	**University of Toronto**	Toronto, ON, Canada
	• Postdoctoral Fellow, Computer Science Funded by the **Institute of Health Emergencies and Pandemics** and the **Future Skills Centre**. **Other title:** Course Instructor.	
2021-2025	**University of Colorado Boulder**	Boulder, CO, USA
	• Assistant Professor (Teaching), Information Science **Other titles**: Adjunct Professor, Graduate Part-Time Instructor, Doctoral Research Assistant	
2019-2021	**Syracuse University**	Syracuse, NY, USA
	• Graduate Assistant, Information Science and Technology	
2018-2019	**Missouri State University**	Springfield, MO, USA
	• Graduate Teaching Assistant, Computer Science	
2017	**Dhaka International University**	Dhaka, Bangladesh
	• Lecturer, Computer Science and Engineering	

Education

2024	**Ph.D. in Information Science**	Boulder, CO, USA
	• University of Colorado Boulder	
2023	**M.S. in Information Science**	Boulder, CO, USA
	• University of Colorado Boulder	
2019	**M.S. in Computer Science**	Springfield, MO, USA
	• Missouri State University	
2017	**B.S.Eng. in Computer Science and Engineering**	Dhaka, Bangladesh
	• Bangladesh University of Engineering and Technology	

Awards, Honors, and Recognitions

Publication Awards and Recognitions

- *Best Paper Honorable Mention Award*, ACM CHI [C23] (2026)
- *Best Paper Honorable Mention Award*, ACM DIS [C20] (2026)

- *Best Paper Honorable Mention Award*, ACM CHI [C13] (2025)
- *Best Paper Honorable Mention Award*, ACM CSCW [J1] (2021)
- *Recognition for Diversity and Inclusion*, ACM CSCW [J1] (2021)

Academic Distinctions and Professional Honors

- *Special Recognition for Outstanding Reviews*, ACM DIS (2025)
- *Award of Excellence for Outstanding Research*, Information Science, CU Boulder (2024)
- *Teaching Excellence Award*, CU Boulder (2024)
- *Diversity, Equity, and Inclusion Excellence Award*, CU Boulder (2024)
- *Special Recognition for Outstanding Reviews*, ACM CSCW (2024)
- *Special Recognition for Outstanding Reviews*, ACM CHI, (2024; 2023 ×2; 2022)
- *Nominee, Google PhD Fellowship*, CU Boulder (2021)
- *Winner (Top Three), 3 Minute Thesis Competition*, Missouri State University (2018)
- *Champion, Humanitarian App Idea Contest*, IEEE Bangladesh Section (2016)
- *Champion, Business Case Competition*, BUET Entrepreneurship Development Club (2016)
- *Second Runner-up, Youth Earthquake Preparedness Campaign*, UNDP and the Government of Bangladesh (2016)
- *Runner-up, Esonance Technical Poster Presentation*, IEEE IUT Student Branch (2016)
- *First Place, Undergrad Entrance Exam*, Bangladesh University of Engineering & Technology (2012)

Publications

Note: As in many other areas of Computer Science, **leading venues in HCI and AI fairness**[1] include highly selective, extensively peer-reviewed conferences such as CHI, CSCW, and FAccT. These venues use rigorous double-blind peer review and publish full-length archival papers. Within these research communities, such conferences often carry greater prestige, visibility, and impact than many journals[2].

** = Equal contribution. IF = Impact Factor, AR = Acceptance Rate. Student mentee co-authors are underlined.*

Teaching Experience

Instructor of Record

CSC 300: Computers and Society (University of Toronto: Winter 2026)

- Taught two sections (158 students each) about critical perspectives toward technology, including ethics, data, equity, and labor and materiality.
- Coordinated 8 TAs for creating assessments and tutorial activities.

INFO 4609: User-Centered Design (University of Colorado Boulder: Fall 2025, Spring 2024)

- Taught two sections (20 students each; one online) through a balance of theoretical knowledge and applied design skills, including requirements elicitation, prototyping/wireframing tools (e.g., Figma), and evaluation (e.g., usability testing).
- Mentored student groups from project proposal through user research to a final showcase.

INFO 2301: Quantitative Reasoning (CU Boulder: Fall 2024, Spring 2025)

- Taught two sections (37 and 49 students; one online) about fundamentals of boolean logic, probability, and predictive modeling as well as ways to apply those mathematical concepts to data problems using Python programming.

INFO 1301: Statistics for Information Science (CU Boulder: Spring 2023, Fall 2024, Spring 2025)

- Taught two sections (38 and 31 students) about descriptive and inferential statistics and regression with lectures and Excel-based practices for numerical, visual, and analytical fluency with real data.

CSE 401/402[3]: Compiler Design (Dhaka International University: Fall 2017)

- Taught two sections (33 students in lecture and 49 in lab) covering compiler phases, lexical and syntax analysis, code generation, and optimization.

CSE 301/302[3]: Algorithm Design and Analysis (DIU: Fall 2017)

- Taught 54 students in lecture and lab about algorithm complexity analysis, searching and sorting, graph algorithms, and dynamic programming.

CSE 209: Computer Organization and Architecture (DIU: Fall 2017)

- Taught 59 students about processor, arithmetic logic unit, control design, memory and I/O systems, pipelining, parallel processing, and multiprocessor architectures.
- Used lectures, demonstrations, presentations, and group exercises to connect quantitative performance principles with computer system design.

Teaching Assistant Experience

CSC 2615: Ethics in AI (Graduate) (University of Toronto: Fall 2025)

- Assisted the instructor, Syed Ishtiaque Ahmed, in revising the curriculum by updating the reading list and restructuring the lecture plans into modules.

INFO 1111: Understanding the World Through Data (University of Colorado Boulder: Fall 2023)

- Assisted the instructor, Bryan Semaan, in conducting in-class discussions with 160 students.
- Taught a studio/tutorial section of 32 students and helped them use Google BigQuery.
- Developed lecture materials, assignments, and evaluation rubrics in collaboration with other TAs.

INFO 1301: Statistics for Information Science (CU Boulder: Fall 2022)

- Assisted the instructor, Lecia Barker, with in-class discussions and hands-on Excel practice.
- Developed evaluation rubrics and graded assignments and exam submissions from 60 students.
- Held weekly tutorial hours to help students clarify materials covered in the lectures.

INFO 1201: Computational Reasoning (CU Boulder: Spring 2022, Fall 2021)

- Assisted the instructor, Jason Zietz, with developing evaluation rubrics and assignments.
- Conducted two Python lab sessions (35 and 40 students) and graded their submissions.
- Held weekly tutorial hours to help students clarify materials covered in the lectures.

IST 421[4]: Information Visualization (Syracuse University: Spring 2021)

- Assisted the instructor, Josh Introne, in updating the course materials, such as homework assignments and R code samples, and guest lectured in a class of 25 students.

3. Odd- and even-numbered course codes denote lecture and lab components, respectively.
4. Duties in these teaching practica included assisting senior professors and shadowing them.

IST 300[4]: Digital Platforms (SU: Fall 2020)

- Assisted the instructor, John Jordan, in preparing the course syllabus (e.g., reading list, grade weights) for a new course, in collaboration with another TA, Ellen Simpson.

IST 343[4]: Data in Society (SU: Spring 2020)

- Assisted the instructor, Jennifer Stromer-Galley, with in-class discussions for 86 students.
- Supported the transition from in-person to online teaching during the COVID-19 lockdown.
- Guest lectured and graded discussion participation and assignments for 21 students.

IST 649[4]: Human Interaction with Computers (Graduate) (SU: Fall 2019)

- Assisted the instructor, Bryan Semaan, in leading discussions in a seminar structure.
- Mentored 8 students for their course projects' ideation, prototyping, and evaluation.

CSC 131: Computational Thinking (Missouri State University: Spring 2019, Spring 2018)

- Helped instructors Jamil Saquer and Sam Bumgardner debug students' Python code in class.
- Helped students with homework in office hours and graded their work (68 and 37 students).

CSC 130: The World of Computer Science (MSU: Spring 2019, Fall 2018)

- Assisted the instructor, Yang Wang, in helping students debug Python code in class.
- Helped students with homework in office hours and graded their work (45 and 42 students).

Advising & Mentoring

In addition to mentoring students at the universities where I work, I independently mentor students from other institutions who approach me about opportunities aligned with my research interests.

Ph.D. Students

University of Toronto

- Christelle Tessono; Co-author: [C22] (2025–Present)
- Jessica Y. Bo; Co-author: [C16] (2025)
- Maryam Mokhberi; Co-author: [J7, C20] (2025–Present)
- Erina Moon; Co-author: [C13] (2024–2025)
- Kelly McConvey; Co-author: [S9] (2024–2026)

University of Colorado Boulder

- Divyanshu Kumar Singh; Co-author: [C21, C14, W7, B1] (2022–present)
- Temi Olorunsogo (2022–2026)

Other Institutions

- Ishmam Bin Rofi — Rochester Institute of Technology; Co-author: [C15] (2025–Present)
- Mashiyat Mahjabin Eshita — University of Louisiana at Lafayette; Co-author: [C15] (2025–Present)

Master's Students

University of Colorado Boulder

- Shruti Sunil Wakchoure (2024–2025)
- Bhawneet Singh (2023)
- Yan Xia (2023)

Other Institutions

- Md. Sabbir Ahmed — BRAC University; Co-author: [C15] (2025–Present)
- Ankit Singh Chauhan — Indiana University Indianapolis; Co-author: [C18] (2025)
- Dhwani Gandhi — Syracuse University; Co-author: [J3] (2020–2021)

Undergraduate Students

University of Toronto

- Matthew Tamura; Co-author: [C19] (2024–2026)
- Afrin Prio; Honors thesis; Co-author: [C23] (2024–2026)

Other Institutions

- Kazi Ababil Azam — Bangladesh University of Engineering and Technology (2025)
- Acchiya Sultana — Independent University, Bangladesh; Co-author: [C18, C10] (2024–2026)
- Arpita Kundu — Khulna University of Engineering & Technology (2023)
- Arpon Podder — Khulna University of Engineering & Technology; Co-author: [J2, S6] (2020–2024)
